Comments: I was raised in MT for 26 years and to allow a corporation outside of the state of MT to destroy historic landmark to build a bigger resort to only linr the pockets of the greedy is disgusting and disgraceful not to mention those who are being fairly well compensated to sell out and allow this outrage to happen. Holland lake lodge is such a beautiful and peaceful place to stay and by allowing this to happen is only going to destroy the nature around the area. Especially the lake. People are going to do as they please just for the wiff of green in their pockets. Those who are allowed to be bought and sold are nothing more than scum who do not know let alone understand what MT is truly about.
