Comments: I am vehemently opposed to the the development of Holland Lake by a private corporation. First of all the State and Federal Forestry Departments have no right, no right, to take public land and turn it into a resort for well to do tourists! They have many places to stay. Leave our historic sites, leave our land open and free for ALL and do not sell to private corporations, nor foreign governments or individuals, who are fronted by foreign organizations! Who is making the money on this deal??
