Comments: This advanced development on Holland Lake Lodge would be devastating and incredibly invasive to Holland Lake and the surrounding area. Montanas natural recourses are being gobbled up by wealthy developers, taking over everything beautiful and pristine.

This is a quiet and incredibly peaceful place for the public and locals and will no longer be that if its tainted with big city greed. I'm all for positive change, but this is not the kind of change I'm on board for. The buildings and land should be preserved keeping it true to Montana. We don't live here because we like nice buildings and smooth roads-obviously. We live here for the untouched beauty and the history that still stands for us. PLEASE DO NOT let this pass!! Stop letting big money rule!
