Comments: I Oppose this proposition. Holland Lake needs to stay a treasure to Montana, having a very large hotel condo, whatever will destroy the wildlife habitat, destroy one of our Last best places in Montana. We are Montana for a reason, keep it this way. If we let more and more change it before we know it, we'll hAve nothing available to escape to. People come to visit Montana for a reason yes, but they visit and go home...do not change our lands we love and cherish. We do not need to exploit our lands any more than they already are becoming. Our local people in Kalispell cannot keep up with all these extra folks. Our little small restaurants, gas stations, hospitals, sheriffs office and local police offices cannot keep up with the influx of more people. Do not let this go through I beg of you for our local people. Please keep your community in mind.
