Title:

Comments: Thank you for giving residents the opportunity to speak. Holland Lake is pristine and undefiled. It is like few other spots left in the state that remain untouched, having a sacredness that will be lost if this project is to be completed. It is nothing short of greed at the rape of the land. If I could vote on this issue I would vote NO, the only winners, should this be allowed, would be this giant corporation looking only to line its Pockets with the fleece of the land. Please grow a strong backbone and say no. Keep Montana's unspoiled beauty unspoiled. God won't give you a second chance at recreating His beauty. It's for everybody, untouched, raw, necessary. Thank you
