Comments: Please do not move forward with the lodge on Holland lake. As a child we would take a yearly camping trip to holland lake, it is a sweet memory, and I plan to do it with my own children. Being a Montana native and continuing to live here, it's gut wrenching watching the state being taken over and only looking out for people who visit and NOT for the people who pay taxes here, live here, and want it to stay MT.

This will be bad for the state, the animals, the land, the people who live in the holland lake area, and it will only be good for someone else's bank account.
