Comments: As a Montanan who has spent time in the Holland Lake area, I object to this proposal. Please do not approve it. Holland Lake and the area around it are very special because of its non-commercial nature. It is a quiet family recreational area and commercial, resort-style lodgings and restaurant would destroy the very thing that makes the Holland lake area a valuable resource to all Montanans. The lake is relatively small and introducing this style of operation would over-burden the lake. The Forest Service should not allow its stewardship of this public land to be the reason Holland Lake is ruined.
