Title:

Comments: I urge the Forest Service to deny the request by the out of state corporation, POWDR, to develop Holland Lake into a lodge, restaurant, etc. Holland Lake is wonderful because it is a hidden, pristine, and undeveloped oasis. The people of this great state want to preserve 'why' Montana is the last best place. Holland Lake is exactly what we need to preserve. The continued development to cater to out of state money will destroy our beautiful state. We've realized the negative impact to Big Sky, Whitefish, Bozeman, the list goes on and on. Please preserve this incredible treasure so we can all enjoy its serenity for years to come.

Thank you for your genuine consideration,

Kalli Kind
