Comments: As someone who recreates I think of Montana as the Mecca of outdoor recreation in the lower 48. This proposal goes directly against that by letting big money into areas it doesn't belong. This is on the edge of wilderness area where people go to GET AWAY from development and other people. All this is doing is ruining the pristine atmosphere of the area and is an insult to not only Montana residents but Americans as a whole. This is federal land so it affects everyone. All of the development is going to have a drastic affect on the ecology in the area. All in all this proposal benefits nobody except those with money, which nobody wants in the area.
