First name: Nadeea

Last name: Jackson

Organization:

Title:

Comments: To whom it may concern

As a resident of Montana I treasure our public lands as they are for everyone of all class and colors. If an out of state organization comes into our state to to develop our beautiful state the people of our beautiful state will no longer be able to afford the luxuries that we have. Public lands should stay public and out of state developers should stay in their own states.

I am strongly against allowing this beautiful lake to be developed into something that many people will no longer be able to afford.

Thank you,
Nadeea Jackson
