Comments: NO PUBLIC LAND SHOULD BE LEASED . The Forest Service has no right to use public land for profit. Especially if buildings are to be put up.. The Forest Service should be disbanded and states should be incharge of the own lands.. Federal overreach is turning a beautiful nation against it's self . The Forest Service closes access to the public but wants to lease it to businesses for profit. This is wrong and should not be allowed. The disgusting habits of the federal government needs to be stopped, before they destroy our state that I was born in and still live today. Forest Service wastes massive amounts of money with to many vehicles to many employees and zero concern for the public lands. They don't allow mature, sick and dieing timber to be cut. They would rather see it burn . Once again a federal waste of taxpayers dollars.
