Comments: Hello,

I am writing to express my objection to the Holland Lake Lodge expansion project. Holland lake is a sacred area to many people in and around the area. The natural beauty is unmatched, and does not need "improvement". As a Biologist, I recognize the importance of old growth forests as ecosystem cornerstones. Tearing these trees down will be highly detrimental to the native plant and animal species of the area.

I appreciate the ability to leave my comment on this topic, and once again, I am fully against it. Thank you,

Julia Battisti
