Title:

Comments: This proposal does not match to green development. Any project that cuts down trees and increases pavement doesn't honor the impact of global warming and climate change. Please send the developer back to the drawing board with request that they think about tents, no concrete, and smaller exclusive cabins. I am pro-development, but not in the same old destructive ways. Plant more trees, nestle the cabins in amongst them, bark paths and drives, not paving, no large restaurant or lodge. Make this place a model of the new world, not the same old crap that destroys our planet.

The only reason to visit Montana is to enjoy as close as we can come in the US to tranquility and nature. I live in NY and have visited Montana near Glacier Nat'l Park. I am still savoring the tranquility and remote feeling and want to return. Please don't destroy it.
