Comments: Greetings,

I recently heard about the plans to allow for new buildings on Forest Service Land near Holland Lake. As a resident of the Bitterroot Valley and frequent user of Holland Lake for recreation, I thought it would be prudent to weigh in on this endeavor. I personally, would hate to see yet more development in our "backyard". Over the past several years we have seen a major increase in traffic/population on our roads, on our trails, on our lakes etc.... Please do not be the catalyst that fuels this trend. I enjoy me recreation and solitude and that is getting increasingly harder to find.

Thank you,

Jared Moses
