Comments: I have been going to Holland Lake since I was a child for family events with many people who have since passed. It is a very important place for my family and many other families across the state of Montana. The lake has always been quaint as have the facilities. Many other lakes in the area have already been overdeveloped and turned into places where many native Montana families cannot afford to visit. Please keep Holland Lake off that list and keep it a natural place where Montanans can come to enjoy the remaining natural beauty of their state with their loved ones.
