Comments: I have been going to Holland Lake since I was a child and love to take my own children there to recreate, camp, and hike. It's a lovely little gem that is still fairly remote and I have some great memories from the area. Do not allow another Montana space to be overrun by tourists and developers. We deserve to enjoy the space we live in the way it is, not filled with the Uber-rich out of staters that don't understand or respect the history of our state. Keep Holland Lake from being overhauled to cater to tourists!
