Comments: I don't want to see the areas that attract us to get out on hikes and explore nature turn into taxed lodges and and restaurants.. Please leave Holland Lake alone. It's been a favorite getaway spot for many locals and out of staters as well. It doesn't need to change! Montana won't be Montana anymore if you guys keep building. The more you build on our forest lands the more trash and pollution end up in our rivers and streams. Our lake shores will start to look like California beach shores with all of the trash washing up on them.
