Title:

Comments: Native Montanan here who loves this state more than life itself. Please do come and enjoy the vast beauty our state has to offer. Feel the earth as it is meant to be felt and enjoy the diverse country that is Montana but leave it as it is. Why must the forest, lakes, rivers be damaged to be enjoyed. I was raised to leave a place as you found it or in better condition. I always thought the motto of the forest service was to preserve and protect our beautiful outdoors here in Montana. Step up and take care of this.
