Title:

Comments: This is a terrible idea. This plan will do nothing to "enhance" the experience of those who seek out Holland Lake for what it currently is and should remain. Instead it will stand as a landmark of ceded values and capitalist greed. Montanans don't want their cherished places irreparably altered and featured in more "Top 10" lists. We should value our history and sense of place, not be catering to well-heeled out-of-staters who are looking for a chic weekend getaway.
