Comments: I was born and raised in the bitorroot valley now living on the hiline. Montana is my home. Lately there have been a lot of people coming to Montana to try to change it. Leave Montana alone. Leave the Holland lake area alone. It is perfect just the way it is...or was. This will only bring in more tourism and it will ruin the peacefulness in that area. Montanans can't visit our own back yard anymore without it being a tourist attraction. We need to protect these places, not destroy them with big buildings and more people.
