Comments: I would like to express my opposition of the continued use of Montana public lands to develop recreational and/or "non-profit" facilities specifically designed to mostly serve elite, wealthy, out of state populations.

The purpose of public land is to provide access to all Montanans and yes, to those visiting our state as well, not just to those with deep pockets or the right connections. Actions that take away access only serve to further divide people and build distrust towards government agencies. The small number of Montanans who might benefit from such development pales in comparison to the long term ramifications of continuing to approve these projects. I would encourage you to say no to this project.
