Title:

Comments: Please do not allow this to happen. People from other states move to Montana because it's open and free, then they start imposing their rules on us. They're rich, and they know all the ways to get around paying taxes, so they don't contribute to our state. The more they move here, the more our state changes and becomes something other than what we want our state to be. Look at Whitefish, look at Bozeman....ordinary Montanans can not afford to live in those places anymore. We have enough of those areas now. Bozeman, Whitefish and Kalispell are spreading like covid and monkey pox. Enough is enough!
