Comments: I have been planning on moving to Montana for retirement. It is such a beautiful quiet state, devoid of large crowds and traffic. I grew up in NC and am leaving because of weather changes and a flood of progressive people moving to this area. Montana is such a beautiful state, the most beautiful place I have ever been. I have a good friend who is building a house there now in Kalispell. I can't bear the thought of such a beautiful place being destroyed. I believe Montana should remain mostly rural and pristine, a place where people can enjoy nature and a quiet way of life. I pray this project will not be approved.

Thank you for your consideration.

Chip
