Comments: I grew up spending weeks of time at holland lake with my family. For the longest time I told my mother that I would be getting married at the Holland lake lodge and would be taking my wedding photos under the waterfall. This lake is truly breathtaking and it would be a shame for the quiet lake to be ruined by a large corporation coming in and turning it into a resort lake. There are some places in the state of Montana where we just need to keep Montana Montana and truly leave it wild and holland lake is one of those places. There are plenty resorts around this state that can go up on the larger lakes but don't allow them to ruin our quaint Montana mountain lakes.
