Title:

Comments: I am in favor of this expansion with exceptions, #1. No motors or jet ski's allowed on Holland lake (Personal powered watercraft only ). #2. If motors are allowed , no more than 10HP. Make it a resort for families that are looking for a quiet restful relaxing vacation which will also keep the lake a tranquil setting as it's been for many years in the Condon community. Also this approach will be much more acceptable to the environmental approach with the wilderness and the Bob Marshal right next door. (Swan Valley having the highest concentration of Grizzlies in the lower 48)..
