Comments: It breaks my heart that a company for profit would be allowed to come in and exploit this land. My family and friends go to Holland lake to get away from modern convenience. Updating and building more buildings will destroy the beauty of Holland lake. The lake will soon lose it's crystal clear appearance. The area will be polluted with people, noise, and their trash. Your grand children will never be able to experience this beautiful land. I grew up in Minnesota land of 10000 lakes. I know what development does to a lake. Don't sell your soul to the devil!
