Comments: To Whom It May Concern;

My plea is very simple.

We do NOT need anymore of this out of state building going on. They do not care about the communities, the people, the land, the watershed, the homelands of wildlife.

They only care about PROFIT !!!!

Our huge influx of growth is damaging all the above, especially with change of climate. Our lands and waters are deteriorating.

As the Forest Service, it is your responsibility to protect the land and the wildlife.

Not to mention, the highway is dangerous enough to humans and wildlife, and to put an elaborate playground for the rich is just insane.

I implore you to deny this ridiculous request to turn that beautiful area into a "torn up playground".
