Comments: I am 100% opposed to any type of expansion of this magnitude at Holland Lake. This a very special location to so many people and it would be ruined by these proposed changes. As this is on FS land, we the public have a say in whether this project is approved or not. I know many people from Montana and who have visited Holland Lake from outside of the state that have expressed their dismay regarding this project. Please, Please, Please do not approve of this project expansion! This will permanently ruin the beauty and majesty that is Holland Lake. I cannot emphasize enough how important this location is to so many people! Do the right thing here and keep the status quo.
