Comments: To Whom It May Concern:

As a citizen and community member of southwest Montana, I urge you to consider what an "expansion and renovation" will do to our beloved Holland Lake. I have spent the last 20 years making bimonthly visits to the lake, enjoying all it has to offer with my friends and family. I am simply not going to allow the same gentrification that has drove out native Montanans from their hometowns to continue in our recreation areas as well. We are pricing out our own people and for what?
