Comments: It is one thing for Montana to continue to be bought up by big out-of-staters, being they individuals or corporations... but its a whole other frustration when those out-of-staters want to change Montana, instead of respecting and appreciating what Montana is and has to offer. I am not opposed to repair and restoration or even expansion if necessary as long as it coincides with the existing structures. I am opposed to allowing this company to tear down and wipe away Montana history for the 'heck of it'.
