Comments: Having visited Holland Lake camp ground and lodge on multiple occasions and reviewing the proposed improvements for Holland Lake Lodge I want express my support for the planned improvement. The scope of the proposed improvements will fit the environment and setting. The lodge in its current condition is very dated and in need of modernization. The proposal does that but it does it without compromising the beauty of the existing area. If this development plan is approved it will make a significant improvement to the recreational and visitor experience for more guests.
