Comments: When my husband was alive, we camped at Holland Lake along with other family and friends. It is a beautiful place! We loved hiking up to the falls and the gorgeous views from up there. The thought of someone from out of state coming in and developing the acreage where the present lodge is located makes me very sad. I am totally against this, as I feel this area should be left as pristine as possible for future generations to enjoy. Please do not allow this development to take place!!
