Comments: If this project moves forward it will destroy the whole essence of this lake. The lake is one of the most pristine lakes in Montana. The boat loading dock makes it hard for large boats to get into the lake which makes it a haven for paddle boards, kyacks, and children. The family swim area is amazing. The campsites are extremely popular due to the beauty of the area. Allowing a development will completely destroy the current use of the lake and all the conservation work that has allowed the lake to thrive with families. We are seeing this all over Montana and it is destroying our state. I am a fourth generation Montanan and I have seen what it has already done to Bozeman and the arrogant, self entitle attitudes that come with big money will also prove to be an ongoing problem if this development moves forward.
