Comments: Me and my family oppose the expansion of Holland lake lodge; we have a cabin on the lake outlet and have used Holland lake for 50+ years for our family's recreation. Expanding the lodge would take away from the quiet serene feel of Holland lake and make certain areas of recreation impassable by bike/foot. When the campground and day use area was managed by the outside company a few years ago who set up parking pay huts and were giving parking tickets out to those who didn't pay it didn't go well- the huts were vandalized with profanities and the company left Holland lake for good. How would this lodge expansion be much different? Patrons would probably protest or vandalize the new cabins drawing people away from renting there. Let's keep Holland lake the small serene and relaxing place it has always been.
