Title:

Comments: I feel like Montana is just being ruined by the large corporations. It's happening everywhere and it needs to be stopped. Holland lake is just beautiful and for the forest service to allow it to be ruined by a large out of state Corporation is terrible. The people of Mointana that have lived here for a long time are basically just getting overrun by outside money and our government is allowing it to happen. Is our whole state for sale, apparently if you have the money anything's for sale. Thank you for letting me comment.
