Comments: Hi - I am a frequent visitor to Holland Lake and have had numerous visits thwarted these past few years since the campgrounds there have been full or reserved much farther in advance than in past years. I also frequent Holland Lake lodge and have felt the same way with the limited capacity. This plan looks very thought out and will increase the capacity for people to recreate at the lake as well as increased capacity for facilities and services provided. Therefore I full support approval of this plan. Thanks!
