Comments: Holland Lake is a very special location to my family and myself. We travel every year to camp there for a week. My husband and I were married there uniting our 2 families and expanding the importance of this place to us. Even my elderly grandparents made the journey for my wedding and stayed in a cabin. My favorite memory includes cruising the roads from holland lake to Sealy lake with my husband and best friend who has now passed. There are no words to describe the devastation if this place changed. Please take every effort to preserve Holland Lake as it is.
