Comments: I am strongly against the commercialization of the Holland Lake area. This area is stunning and ideal for Montanans and out of staters who like to enjoy nature at its finest. Turning it into a resort will take away from the natural beauty, and encourage travelers who do not have as deep of a respect or admiration for everything Montana stands for: natural beauty and respectful recreation in Montana's great outdoors. There are already plenty of options like this for out of staters in neighboring communities like Whitefish and Seeley Lake, even areas surrounding Glacier.

Please preserve beautiful Holland Lake. The peace and admiration I've (and many others) felt during time in this park would be completely disturbed with the increase in structures and tourism.
