Comments: This is another example of allowing out of stater's to exploit their wealth and complete disregard for the nature and wonders of our beautiful home land. The displaced animals of all types that call this area home, it will be no more. I worked for a planning company for what was Big Mountain , worked hard to take into consideration the riparian areas and migratory needs for our animals. How can this even be done on a 15 acre area in the heart of a wilderness area. It is disgusting and only brings sadness to my heart that this is even a possibility.
