Title:

Comments: Please do NOT allow this to happen on Forest Lease Land. #1. This is a smaller lake and NOT large enough for this proposal. #2. The lake has 2 public campgrounds that have been used by many families for many years...with little damaged. Please consider these families for all future plans. #3. There are many cabins on the other side of the lake also. Please consider that. They have been there for years! #4. There is also outfitters that take people into and through the Bob Marshall Wilderness across the lake. Please consider this area (pristine and special) when considering your decision on this property. #5. The size of the present accommodations is an adequate with some improvements...but NOT larger.... PLEASE PROTECT OUR CAMPGROUNDS, CABINS, AND PRESENT BUSINESSES. Thank you.

Sincerely; Bettie Ambuehl
