Title:

Comments: This lodge is a candidate for the National Register of Historic Places. It is not fitting to remove buildings, infrastructure, or vegetation that are part of this property without a condemnation on their safety hazard, detrimental condition, or unrepairable materials.

Since this is FS lease land, another suitable location on the lake could be designated for the new LODGE.

If this permit goes forward I fear that the old historic buildings will be torn down, then the new building are never built because of supply chain issues, availability of materials, economic drawdown, etc. Great historic value would be lost.

Please deny this permit.
