Comments: Montanans have had an influx of out of state people moving here. Real estate has sky rocketed, average homes are not affordable for local people. The only thing that remains is the quiet undisturbed nature that surrounds the growing cities. Montana is special because of places like Holland Lake and it is more important now than ever to fight for this beautiful land that we love. Please do not allow a corporation to come turn this area into the next Park City or Big Sky. We need Holland Lake to remain as-is otherwise Montana will continue to become a gross tourist trap instead of the Last Best Place.
