Comments: Montana will soon lose its natural beauty if we keep letting big outside organizations make drastic changes that mean so little to them but so much to us who LOVE and ADMIRE Montana. This resort POWDR is "planning" on putting in is going to destroy over 200 trees that we all thought the FOREST SERVICES was supposed to protect? Why does it seem that only the real reason this resort is even an option is to give the state more money, that truly is so sad. The original Holland Lake Lodge was not made for a huge tourist attraction, but for Montana's natural simply beauty. There are other areas were Montana can make money off of attractions. It's so sad that this plan was sent in on April 2022 but we are JUST NOW being made aware of this and have a deadline of 9/21/2022. They say this is a facility improvement but this is no improvement...this is a completely different feel from the original Holland Lake Lodge. There has to be an end to this, Montana is going to be just like every other state if we allow these changes to keep occurring. Montana Forest Service, are you going to protect the land like you should? Or will you keep allowing these big companies like POWDR to invade and destroy the land for their own profit. Is Montana going to stay the "last best place on earth" or will changes like these change Montana's feature. It's not too late, do not allow for this proposed project to proceed.
