Comments: I am writing today to express my concern regarding this project. Holland Lake and all of Montana need to be left alone from 'projects' like this. I do not live in Montana but it is the only place we can visit that allows us to escape all the nonsense of the rest of the world. It is beautiful for so many reasons, the landscape, the culture, the simpler ways of life, it's wildlife and I can go on and on. Don't mess with Montana, it really is the LAST, BEST place left.
