First name: Derin

Last name: Russo

Organization:

Title:

Comments: Please consider the long term negative consequences this will have on those who reside in Montana or visit and use the land responsibly and individuals. Inviting a major out of state corporation to come in and turn what is a local gem into a wealthy out of state escape is not okay. Listen to the people of Montana. They are tired of wealthy out of state money infiltrating the area and drastically changing the landscape and the "Montana way". As someone who was born and raised in Kalispell and whose entire family still resides there, please do not allow this Utah company access to this land.
