Title:

Comments: Let the POWDR company build lodging far from this sparsely developed small area, eliminate overnight stays at it- to retain the natural beauty of it- and, provide shuttle service to & from it for their guests at their significantly distant lodging facility. I envision an analogy of a gorgeous girl- available to, only, a few being made available for many more to pursuit but, that process creates a suppurating, oozing and pus-filled sore on her cheek. It's an astoundingly beautiful area with the lake as it's centerpiece/focal-point. There's so much that would be lost- of it's attractiveness- if allowed to proceed as planned!!! A lust for \$- to be derived from the Natural Beauty- has pitted itself against the Natural Beauty- presenting the opportunity. Once altered, we'll not see it again. I ask that this inconsiderate undertaking be squashed. Thank you.
