Title:

Comments: I was first introduced to this lake by my wife's family 10 years ago. It is a beautiful lake tucked away in the mountains and has become one of the most important places in our family's history. I proposed to my wife at the waterfall and we have since taken all of our children there to camp and enjoy all of the memories that this lake has provided to us. If this project is allowed to happen it will ruin the whole aspect of this lake. There simply isn't enough room for this project and the lake is not big enough to support this kind of growth. This project will take one of the most majestic places we have in our state and turn it into a high traffic area where there won't be as much enjoyment in the seclusion this lake offers now. This is a beautiful place that holds so many special memories to so many people, please don't let it become the next resort and ruin this great place.
