Title:

Comments: It is my wish that you preserve and protect the Holland Lake property for the benefit of the people living near it and for the future. By this I do not mean turning it in to a mega-resort. I can't even imagine anyone considering building a restaurant on the point in front of the Lodge. Holland Lake has been a sanctuary for my family and friends for our entire lifetimes. Please scale back your plans. By any measure, the structures need updating - please do so! Please preserve the laid-back, time-out-of-time vibe that defines this precious place. Our children's children will thank you.
