Comments: This is absolutely absurd to remove historical buildings of any kind from any area. What is a reason to do such a thing. History is history to enjoy and see where our settlers have come to build up our amazing state of Montana. I am an avid hiker and LOVE seeing our historical buildings rather restored or not and learn of what has taken place there is fascinating. Please please don't take these buildings/structures down restore them put informational platforms out for everyone to enjoy and read about them for all generations to come. How can anyone justify destruction ??
