Comments: I am very concerned about the scope of the plan for Holland Lake Lodge expansion. I have enjoyed Holland Lake for its pristine qualities and savor the quiet solitude which is becoming less available as our area becomes more well known.

I do not dispute the fact that the lodge needs updating and the trail head parking needs expanding, however the size of the lodge and the addition of boat rentals and docks with the additional people, trash and traffic will have a negative impact on water quality and wildlife.

Holland Lake is a beautiful gem. Please don't let outsiders come in and ruin it for profit. Please consider how the changes will impact the future quality of the lake and surrounding area.
